SHERO HOME FOOD

Single Meal Order (SMO) Developer Handoff

Six-Month WhatsApp Nudging, ORDER FOOD Trigger & Ordering Flow

CORE POSITIONING

Shero is a broad Indian food offering with a distinctive USP in sides and curries. SMO customers can explore available curries, vegetarian sides and mains. The marketing should lead with sides and curries without implying mains are unavailable.

Version 1.0 | 29 October 2026

1. Purpose and scope

This document covers only the Single Meal Order (SMO) vertical, which is the vertical currently being built. It excludes cross-vertical workflows, subscriptions, Sweet & Snacks, Party Orders, Party Planner and Shero Food Training. Those may be documented separately when required.

- Six-month WhatsApp nudging concept and message pool.
- Gallabox keyword trigger and SMO conversation flow.
- Zoho CRM fields, retargeting buckets, scheduling and state transitions.
- Message randomization, festival/occasion handling and event tracking.
- All 54 SMO nudging message templates aligned with the six-month plan.
- Developer acceptance criteria and test scenarios.

2. SMO product positioning

Primary proposition: Shero helps customers discover Indian food for their meals, with sides and curries as the distinctive USP. Mains are also available. Customers can explore the current menu and select what suits their meal.

Message priority	Guidance
Lead with	Sides and curries: e.g., available sambar, kuzhambu, kootu, poriyal and regional curries.
Support with	Meal combinations and how sides/curries complement rice, dosa, idli, chapati or other staples.
Include when relevant	Mains and complete meal choices, where available.
Avoid	Positioning Shero as only sides/curries, claiming unverified dishes are always available, fake urgency, invented social proof or unverified delivery promises.

3. Systems and responsibilities

System	Responsibility	Required behaviour
Zoho CRM	Customer record, lead bucket, retargeting dates, attempt counters, consent/suppression, journey state and reporting.	Central source of truth for lead state and next eligible action.
Gallabox	WhatsApp message delivery, approved templates, keyword detection and SMO ordering conversation.	Send messages authorized by the agreed workflow; report replies and flow events to Zoho.
Ordering / payment system	Menu, cart, checkout, payment and order statuses.	Send order lifecycle events back to Zoho so nudges can be paused or updated.
Integration / webhook layer	Event transfer, retries, deduplication and error logging.	Prevent duplicate events or messages after retries.

4. Customer journey

1. Customer becomes eligible for SMO nudging and is recorded in Zoho CRM with source, consent status and contact identity.
2. Zoho assigns the appropriate retargeting bucket and calculates the next eligible date.
3. The scheduler chooses a suitable message from the eligible month/theme pool; it should not blindly send templates in a fixed order.
4. Pre-send checks confirm the customer is eligible, not already in an active ordering journey, not opted out, and not on a complaint/support hold.
5. Gallabox sends the approved WhatsApp template.
6. Customer sends ORDER FOOD. Gallabox starts the SMO flow and sends a keyword event to Zoho.
7. Pause prospect nudging while the customer is in the SMO ordering flow.

8. Customer checks serviceability/menu, selects available items, reviews cart and places the order.
9. Order/payment/status events sync back to Zoho. Update purchase status and stop new-customer retargeting or move the customer into a separately approved post-purchase lifecycle.
10. If the customer abandons the flow, use a separately configured recovery rule; do not restart the prospect sequence immediately.

5. Keyword and CTA specification

Item	Requirement
Canonical keyword	ORDER FOOD
Purpose	Start the Single Meal Order WhatsApp flow.
Matching	Case-insensitive matching and trim leading/trailing spaces where supported. Test ORDER FOOD, Order Food and order food.
Template CTA	Every nudging template invites the customer to send ORDER FOOD on WhatsApp.
Trigger handling	Start the SMO flow, set Active_Journey = SMO, pause the SMO prospect nudging scheduler for the active flow.
Button/link option	If a WhatsApp button or click-to-WhatsApp link is used, configure and test the exact destination and keyword prefill/trigger behaviour. The words in a message alone do not create a clickable action.
Completion	Update CRM from actual order status; do not treat keyword response or flow start as a completed order.

Important: only promise menu items, prices, delivery, delivery timing, discounts or order cutoffs when the current data is verified for the customer's ZIP code and order date.

6. Six-month messaging plan

Month	Themes	Objective
Month 1	Complete the meal; same staple, different curry; customer choice	Establish sides and curries as the lead USP.
Month 2	Regional flavours; family convenience; curry spotlight	Build curiosity and make menu discovery easy.
Month 3	Seasonal ideas; quick meal ideas; customer favourites	Inspire combinations and simplify choosing.
Month 4	Festival/occasion; sides and accompaniments; family gatherings	Use relevant occasion-based messages and verified availability/cutoffs.
Month 5	Craving and memory; mix and match; everyday variety	Connect with familiar food preferences and autonomy.
Month 6	Popular combinations; customer appreciation; gentle re-engagement	Invite customers back respectfully without artificial urgency.

The 54 templates are a content pool, not a mandatory fixed sequence for every contact. The scheduler may skip, defer or select a different eligible template based on response, preference, recent content, order state and occasion relevance.

7. Retargeting buckets and cadence

Bucket	Schedule	Exit
No	Once every 30 days; maximum 6 attempts.	After 6 attempts, mark Dead Lead for this campaign.
Later	Every 10 days for 3 attempts, then every 30 days.	Stop when six months from Retargeting_Start_Date is reached; mark Dead Lead.
No-response	Every 3 days for first 3 attempts, then every 10 days for 3 attempts, then every 30 days.	Stop when six months from Retargeting_Start_Date is reached; mark Dead Lead.

Interpretation required before implementation: “No” can only use the monthly cadence if it means declined the current offer but remains opted in. If it means the customer does not want marketing, suppress promotional communication. An opt-out is always a suppression state, never a retargeting bucket.

Event	Action
No response	Keep No-response; record actual attempt; calculate next eligible date.
Customer says Later	Move to Later and recalculate schedule.
Customer declines current offer	Move to No only if this means declined current offer, not opt-out.
ORDER FOOD received	Pause prospect nudges and start SMO flow.
Order completed	Record order status; exit prospect retargeting or transition to separately approved post-purchase flow.
Opt-out	Immediately suppress promotional sends and sync suppression to Gallabox.
Complaint/unresolved issue	Pause promotional nudges until resolved.
Six-month expiry / attempt limit	Mark Dead Lead for this campaign; retain customer record and history.

8. Zoho CRM fields

Field	Type / use
Contact_Key	Normalized phone or unique CRM contact key for deduplication.
Entry_Vertical	SMO for this workflow; retain source channel separately.
Marketing_Opt_In	Boolean plus source and timestamp.
Suppression_Status	Opt-out, complaint hold, invalid contact or other suppression.
Retargeting_Bucket	No / Later / No-response / Engaged / Dead Lead.
Retargeting_Start_Date	Starts six-month clock.
Retargeting_Attempt_Count	Total attempts in this campaign.
Bucket_Attempt_Count	Attempts within current bucket.
Last_Retargeting_Date	Last actual attempt timestamp.
Next_Retargeting_Date	Scheduler due date.
Retargeting_Status	Active / Paused / Suppressed / Completed.
Active_Journey	SMO / None.
Last_Template_ID	Template most recently sent.
Recent_Template_History	Recent template IDs and timestamps, or related activity records.
Customer_Timezone	Customer's known US timezone; record when using a fallback.
Last_Inbound_Keyword	Latest recognized keyword.
SMO_Flow_Status	Not started / Active / Completed / Abandoned.
Last_Order_Date	Latest order timestamp.
Last_Order_Status	Pending / paid / completed / cancelled etc.
Dead_Lead_Reason	Attempt limit, six-month expiry, invalid contact or other defined reason.

9. Scheduling and randomization rules

- Select randomly only from eligible SMO templates; filter by month/theme, customer preference, menu availability, recent message history and occasion relevance.
- Do not repeat the same template or a near-identical angle inside a configurable recent-message lookback window.
- Use one central scheduler/controller; avoid separate workflows sending messages independently to the same customer.
- Festival/occasion messages require an approved date, relevant audience, applicable service area, available menu items, ordering cutoff and expiry date.
- If an occasion message replaces a normal message, do not send both for the same slot.
- When a scheduled message is ineligible, skip/defer with a recorded reason and recalculate the next eligible date.
- Store timestamps consistently and send at an appropriate local time for the customer's known US time zone; record any timezone fallback.

- After keyword trigger, active checkout, order issue, opt-out or complaint, the pre-send gate must block inappropriate promotional messages.
- Use stable template IDs M1-01 through M6-09 and log template selection reason.

10. The 54 WhatsApp templates

Draft copy for brand review and WhatsApp template approval. All dish names are examples and must be checked against the live menu before activation. CTA keyword is ORDER FOOD.

Month 1 — Complete the meal

M1-01 — Rice is sorted. What goes on the side?

Angle: Meal completion

Rice is sorted for today's meal? □

Now comes the interesting part — what goes with it?

Explore the curries and vegetarian sides available from Shero Home Food to find something that completes your plate.

Ready to explore? Send ORDER FOOD on WhatsApp. □

M1-02 — Same rice, different curry

Angle: Novelty

Same rice. Different curry. A completely different flavour experience. □

From comforting sambar to tangy kuzhambu, discover the curry options available from Shero.

Send ORDER FOOD on WhatsApp to explore the menu.

M1-03 — The side dish that changes the plate

Angle: Meal imagination

Sometimes, it's the side dish that makes the meal feel complete. □

Think vegetable poriyal, kootu or another favourite accompaniment to your usual meal.

Discover the available sides and curries from Shero Home Food.

Send ORDER FOOD to get started.

M1-04 — Your meal, your combination

Angle: Autonomy

Rice, dosa, idli or chapati — what you eat it with is up to you.

Explore Shero's available curries and sides and choose what suits your meal today.

Send ORDER FOOD on WhatsApp to see the options. □

M1-05 — What are you craving today?

Angle: Craving

A comforting sambar? A tangy kuzhambu? A vegetable side you love?

Everyone has their favourite combination. □

What would you choose for your next meal?

Send ORDER FOOD on WhatsApp to explore Shero's available menu.

M1-06 — Make everyday meals more interesting

Angle: Variety

Your everyday staple doesn't have to mean the same meal every time.

Try a different combination of curries and sides from Shero Home Food and give your usual meal a new twist.

Send ORDER FOOD to discover the available options.

M1-07 — One less thing to plan

Angle: Convenience

Planning your meal at home? Start with your rice, dosa or chapati. Then think about the curry and sides.

Shero helps you explore additional food options without having to plan every dish yourself. □

Send ORDER FOOD on WhatsApp to see what's available.

M1-08 — Which side belongs on your plate?

Angle: Choice

Let's settle an important food question! □

Are you choosing a vegetable poriyal, a comforting kootu or a flavourful curry to go with your meal?

Explore the available selections from Shero Home Food.

Send ORDER FOOD to begin.

M1-09 — Your next meal starts with a choice

Angle: Soft conversion

The staple is familiar. Now choose the flavours that go alongside it. □□

Explore Shero's available vegetarian curries and sides whenever you're planning your next meal.

Send ORDER FOOD on WhatsApp to start choosing.

Month 2 — Regional flavours and curry spotlight

M2-01 — Kerala, Andhra or Chettinad?

Angle: Regional discovery

Three regional food traditions. So many flavours to explore. □

Whether you enjoy Kerala-style curries, Andhra flavours or Chettinad favourites, discover the options available from Shero Home Food.

Which would you choose?

Send ORDER FOOD on WhatsApp to explore.

M2-02 — Bring regional variety to your table

Angle: Meal inspiration

Your usual rice or chapati can pair with different regional curries and sides.

Explore the vegetarian options currently available from Shero and choose a flavour that suits your meal.

Send ORDER FOOD to see the menu. □

M2-03 — A familiar taste, a different day

Angle: Emotional connection

Some days call for a comforting curry. Other days, you may want something with a different flavour.

That's the joy of exploring regional food. □

Discover Shero's available curries and sides.

Send ORDER FOOD on WhatsApp to get started.

M2-04 — What's cooking for the family?

Angle: Family convenience

Planning the family's rice, dosa or chapati is one thing. Deciding what goes alongside it is another! □

Explore Shero's available curries and sides to find options that fit your household's meal plans.

Send ORDER FOOD to explore the menu.

M2-05 — Different plates, different preferences

Angle: Household choice

One person wants a curry. Someone else wants a vegetable side. Everyone has a favourite.

Explore the available selections from Shero Home Food and find options that suit your table. □

Send ORDER FOOD on WhatsApp to begin.

M2-06 — Let the curry be the star

Angle: Curry spotlight

Sometimes the first thing you decide about a meal isn't the rice. It's the curry you feel like eating. □

Explore the curries available from Shero and find a flavour that inspires your next meal.

Send ORDER FOOD to see the options.

M2-07 — The comforting curry question

Angle: Curiosity

Thick and comforting? Tangy and flavourful? Packed with regional character?

What kind of curry would make your next meal more enjoyable?

Explore Shero's available menu.

Send ORDER FOOD on WhatsApp to start choosing.

M2-08 — Your favourite combination, your way

Angle: Autonomy

The fun is in finding the combinations you enjoy most.

Pair your usual staple with the curries and sides that appeal to you, and explore something different when you're in the mood.

Send ORDER FOOD to browse Shero's available options. □

M2-09 — A little more variety at mealtime

Angle: Variety

You don't always need to change your whole meal to try a different flavour.

Sometimes, changing the curry or adding a different side is enough.

Explore Shero Home Food's available vegetarian selections.

Send ORDER FOOD on WhatsApp to get started.

Month 3 — Seasonal ideas, quick meal ideas and favourites

M3-01 — What would complete today's meal?

Angle: Meal completion

Got your rice or chapati planned? □

Now think about the curry or side that would bring the whole plate together.

Explore the available selections from Shero Home Food.

Send ORDER FOOD on WhatsApp to discover your options.

M3-02 — The quick meal-planning trick

Angle: Useful tip

Here's a simple way to plan your next meal:

Choose your staple first. Then decide whether you want a comforting curry, a vegetable side or both.

Explore Shero's available options to help make that choice.

Send ORDER FOOD to get started. □

M3-03 — A little variety goes a long way

Angle: Novelty

A familiar meal can feel different when you change the curry or side.

Explore the regional vegetarian selections available from Shero Home Food and find a combination that suits you.

Send ORDER FOOD on WhatsApp to browse the menu.

M3-04 — What are you in the mood for?

Angle: Craving

Some days call for sambar. Other days, you might prefer kuzhambu, kootu or a different regional curry.

What's on your mind today? □

Explore the dishes currently available from Shero.

Send ORDER FOOD to see your options.

M3-05 — Let your meal decide

Angle: Convenience

Making dosa? Planning rice? Thinking about chapati?

Start with what you're eating, then explore the curries and sides that complement it.

Shero Home Food makes it easy to discover more options for your table.

Send ORDER FOOD on WhatsApp to get started.

M3-06 — Discover a different favourite

Angle: Discovery

Your favourite curry may already be decided. But there may be another one worth discovering. □

Explore the available curries and vegetarian sides from Shero Home Food and see what catches your attention.

Send ORDER FOOD to browse the menu.

M3-07 — Keep your meal planning simple

Angle: Cognitive ease

Not every meal needs a complicated plan.

Start with your usual staple and explore the available curries and sides that suit your preferences.

A simple combination can be just what you feel like eating.

Send ORDER FOOD on WhatsApp to see what's available.

M3-08 — A curry for the mood

Angle: Mood relevance

Comfort food mood? Looking for a different regional flavour? Want a vegetable side alongside your usual meal?

Start with the flavour you're craving. □

Explore Shero's available selections by sending ORDER FOOD on WhatsApp.

M3-09 — What would you add to your plate?

Angle: Choice

Imagine your next plate of rice, dosa or chapati.

Would you add a curry, a vegetable side or a combination of both?

Discover the options available from Shero Home Food.

Send ORDER FOOD to start choosing.

Month 4 — Festivals, occasions and accompaniments

M4-01 — The supporting stars of a festive meal

Angle: Occasion relevance

Planning a festive meal with family? □□

Alongside the main dishes, the right curries and sides can bring variety to the table.

Explore Shero Home Food's available vegetarian selections.

Send ORDER FOOD on WhatsApp to see the menu.

M4-02 — The meal is more than the main dish

Angle: Meal imagination

When planning a special meal, don't forget the curries and accompaniments that go alongside it.

Think about the flavours your family enjoys, then explore the available options from Shero Home Food.

Send ORDER FOOD to get started. □

M4-03 — Plan the sides before the occasion

Angle: Planning convenience

A little advance planning can make a family gathering easier.

Think about the staple, the curries and the vegetable sides you'd like to serve. Then check what's available for your location.

Send ORDER FOOD on WhatsApp to explore Shero's menu.

M4-04 — Festival flavours for your table

Angle: Festival relevance

Celebrating a festival with family? □

If Indian vegetarian curries and sides are part of your plans, explore the available selections from Shero Home Food.

Check delivery availability and ordering cutoffs for your area before placing an order.

Send ORDER FOOD to begin.

M4-05 — Your festive plate, your way

Angle: Autonomy

Every family has its own favourite food combinations.

For your next festive meal, explore the curries and sides that complement the dishes you already plan to serve.

See what's available from Shero Home Food.

Send ORDER FOOD on WhatsApp to get started.

M4-06 — The accompaniments matter

Angle: Product discovery

Sometimes the details make a meal memorable. A favourite curry, a vegetable side or a combination of familiar flavours. □

Explore Shero's available vegetarian accompaniments for your next family meal.

Send ORDER FOOD to discover the menu.

M4-07 — Hosting family or friends?

Angle: Group meal planning

Planning food for more people than usual?

Start with the dishes you want to serve, then think about the curries and sides that would complement them.

For larger quantities, check Shero's separate party-order options and availability.

Send ORDER FOOD to explore the Single Meal Order menu, or ask about party orders separately.

M4-08 — What belongs on your celebration table?

Angle: Occasion planning

A special occasion is a good reason to plan the food everyone enjoys. □

Which curries and sides would you like alongside your main dishes?

Explore the available options from Shero Home Food and check your area's delivery availability.

Send ORDER FOOD on WhatsApp to begin.

M4-09 — Get your menu ideas together

Angle: Planning

An upcoming celebration is easier to plan when you know your food options in advance.

Explore Shero's available curries and sides, and confirm the ordering window that applies to your location.

Send ORDER FOOD on WhatsApp to view the menu.

Month 5 — Craving, memory and mix-and-match

M5-01 — Some flavours feel like home

Angle: Emotional memory

Some days, all you want is that familiar taste of a favourite curry. □

Think about the dishes you grew up enjoying, the flavours you remember and the combinations you love.

Explore Shero Home Food's available curries and sides.

Send ORDER FOOD to discover the menu.

M5-02 — What does your comfort meal look like?

Angle: Comfort and identity

Is it rice with a comforting curry? Dosa with a favourite accompaniment? Chapati with something flavourful on the side?

Everyone has their own comfort-food combination. □

Explore the available options from Shero.

Send ORDER FOOD on WhatsApp to get started.

M5-03 — The curry you keep thinking about

Angle: Craving

You know that feeling when a particular curry comes to mind and nothing else sounds quite right? □

Explore Shero's available regional curries and sides to find something that matches your craving.

Send ORDER FOOD to see the menu.

M5-04 — Mix, match and make it yours

Angle: Autonomy

One staple. Different curries. Plenty of combinations to explore.

Choose the flavours that appeal to you and discover available sides that complement your meal.

Explore Shero Home Food at your convenience.

Send ORDER FOOD on WhatsApp to begin.

M5-05 — One meal, another possibility

Angle: Cross-combination within SMO

You may already know what you're having for your main meal.

Now think about what could go alongside it. A curry? A vegetable side? Something different from your usual choice?

Explore Shero's available selections.

Send ORDER FOOD to get started. □

M5-06 — Change the flavour, not the whole meal

Angle: Convenience

You don't have to change everything to enjoy a different meal experience.

Keep your favourite staple and explore a different curry or side from Shero Home Food.

Check the current menu and choose what suits you.

Send ORDER FOOD on WhatsApp to see the options.

M5-07 — Your everyday food deserves variety

Angle: Everyday variety

Everyday meals are a big part of life. Why not explore different curries and sides to go with them?

From familiar favourites to regional flavours, discover what's available from Shero.

Send ORDER FOOD to browse the menu. □

M5-08 — Which combination would you choose?

Angle: Choice

Let's make your next meal interesting.

Would you go for a comforting curry, a vegetable side or a combination of both?

Explore Shero's available selections and choose your preferred flavours.

Send ORDER FOOD on WhatsApp to begin.

M5-09 — Find your next food favourite

Angle: Discovery

Maybe you'll choose a familiar favourite. Maybe you'll discover a different curry or side that suits your meal.

Either way, the choice is yours. □

Explore the available menu from Shero Home Food.

Send ORDER FOOD to get started.

Month 6 — Popular combinations and respectful re-engagement

M6-01 — Build your favourite combination

Angle: Favourite combination

Have a favourite way to eat your rice, dosa or chapati?

Think about the curries and sides that make it your kind of meal, then explore the available options from Shero Home Food.

Send ORDER FOOD on WhatsApp to browse the menu. □

M6-02 — Your next combination could be different

Angle: Novelty

The curry you choose today doesn't have to be the one you chose last time.

Explore Shero's available curries and vegetarian sides and discover another combination for your next meal.

Send ORDER FOOD to get started.

M6-03 — A little reminder for your next meal

Angle: Gentle reminder

Whenever you're planning rice, dosa or chapati, remember to think about the curry and sides that go alongside it. □

Explore Shero Home Food's current menu whenever it suits you.

Send ORDER FOOD on WhatsApp to see what's available.

M6-04 — Still exploring your food options?

Angle: Re-engagement

If you're still looking for curries and sides to complement your everyday meals, Shero Home Food is here to help you explore.

Check the current menu and delivery availability for your area.

Send ORDER FOOD to begin.

M6-05 — What would you like to eat next?

Angle: Preference

A familiar curry? A different regional flavour? A vegetable side to go with your usual staple?

Start with what you're in the mood for. □

Explore Shero's available selections by sending ORDER FOOD on WhatsApp.

M6-06 — A thank-you from Shero

Angle: Appreciation

Thank you for being connected with Shero Home Food. □

We love helping people discover the curries and sides that complement the meals they enjoy at home.

Whenever you'd like to explore the available menu, send ORDER FOOD on WhatsApp.

M6-07 — Your food preferences matter

Angle: Preference

Everyone has different favourites, and we want your Shero experience to reflect the food you enjoy.

Explore the available curries and sides, and choose what appeals to you.

Send ORDER FOOD on WhatsApp to get started. □

M6-08 — Ready when you are

Angle: Soft CTA

Planning your next meal? You can explore Shero's available curries and sides whenever it suits you.

Check the menu and delivery availability for your location before ordering.

Send ORDER FOOD on WhatsApp to begin.

M6-09 — We'll be here for your next meal

Angle: Respectful close

Whether you're in the mood for a familiar curry or want to explore a different combination, Shero Home Food is here to help you discover the available options.

Thank you for giving us a place in your food journey.

Whenever you're ready, send ORDER FOOD on WhatsApp.

11. Event tracking and dashboard

Event	Data to log
Lead created/updated	Contact ID, source, timestamp, consent, SMO entry status.
Message scheduled	Contact ID, template ID, bucket, due date and selection reason.
Message sent/failed	Gallabox message ID, template ID, timestamp, status, failure reason.
Delivery/read status	Provider status and timestamp, when available.
Inbound response	Timestamp, normalized response category and keyword.
ORDER FOOD trigger	Keyword, flow ID, contact ID, timestamp.
SMO flow stage	Stage, stage timestamp and drop-off point.
Order lifecycle	Order ID, value, status, timestamp, cancellation/refund status where applicable.
Opt-out / complaint	Timestamp, source, suppression state and sync confirmation.

Dashboard KPIs

- Eligible leads by retargeting bucket and campaign month.
- Messages due, sent, skipped, deferred and failed by template ID.
- Reply rate and ORDER FOOD keyword-trigger rate by template.
- SMO flow starts, stage-wise drop-offs and completed orders.
- Revenue and average order value attributed to template/cohort where tracking allows.
- Dead leads by reason and time in journey.
- Opt-outs, complaints, delivery failures and suppression-sync failures.

12. Developer acceptance checklist

- ☐ Lead is deduplicated and assigned SMO source/journey fields.
- ☐ Each retargeting bucket calculates correct dates and counters.
- ☐ No-response cadence: every 3 days for 3 attempts, then every 10 days for 3 attempts, then every 30 days until six-month expiry.
- ☐ Later cadence: every 10 days for 3 attempts, then every 30 days until six-month expiry.
- ☐ No cadence: every 30 days, maximum 6 attempts, only when No is not an opt-out.
- ☐ ORDER FOOD triggers the SMO flow and pauses SMO prospect nudging.
- ☐ An active SMO flow blocks scheduled prospect nudges.
- ☐ Opt-out blocks promotional dispatch and updates the suppression record.
- ☐ An unresolved complaint blocks promotional nudging.
- ☐ Menu/occasion availability is checked before relevant messages are selected.
- ☐ Message randomization excludes recently used templates and logs selection reason.
- ☐ Webhook retry does not create duplicate messages, flow starts or order events.
- ☐ Order and flow-stage events update Zoho correctly.
- ☐ Six-month expiry/attempt limit marks campaign status Dead Lead without deleting the contact.
- ☐ Dashboard counts reconcile against Gallabox and order-system events.

13. Test scenarios before release

Scenario	Expected result
New No-response lead	First date calculated from configured start date; attempt counter updated only after actual send/attempt per agreed definition.
No-response attempt 3 completed	Next interval switches to 10 days.
Three 10-day No-response attempts completed	Next interval switches to 30 days.
Later attempt 3 completed	Next interval switches to 30 days.
No bucket reaches 6 attempts	Campaign marked Dead Lead.
ORDER FOOD received at scheduled-send time	SMO flow starts; due promotional send is cancelled/paused.
Opt-out occurs after message scheduled	Pre-send check blocks dispatch.
Customer has unresolved complaint	Promotional dispatch blocked.
Festival dish unavailable or order cutoff passed	Occasion template skipped and reason logged.
Webhook times out and retries	No duplicate event or send.
Six-month end date reached	No further campaign messages; mark Dead Lead for this campaign.

14. Decisions and dependencies to confirm

- Confirm the exact meaning of the No bucket before coding.
- Confirm Zoho CRM edition, custom-function/scheduler availability, workflow limits and API access.
- Confirm Gallabox keyword trigger, webhook and message-status capabilities in the current account.
- Confirm the ordering/payment system as the source of truth for order completion.
- Confirm actual live menu catalogue, serviceable ZIP codes, delivery windows, order cutoffs and pricing.
- Approve WhatsApp templates and confirm business-initiated template requirements before activation.
- Confirm how customer time zone is obtained and define a documented fallback.
- Agree whether any post-purchase SMO communication is required; keep it separate from this prospect-nudging specification.

15. Build and release phases

Phase	Work	Exit criteria
1. Confirm design	Agree bucket meanings, fields, data sources, scheduler and Gallabox events.	Approved field map and workflow diagram.
2. Build	Zoho CRM fields/functions, scheduler, keyword trigger, templates and event sync.	Unit tests pass.
3. Integration test	Test all buckets, ORDER FOOD, orders, opt-out, complaints and retries.	Acceptance checklist passes.
4. Pilot	Run with a limited eligible cohort and review send logs daily.	No duplicate sends; counts reconcile.
5. Rollout	Expand gradually and monitor template/funnel performance.	Business owner accepts dashboard and operating runbook.

END OF SMO-ONLY DEVELOPER HANDOFF
